## IRON HIGHWAYS.

Why Railroads are Entitled to Protec-

Bailroads That Have Gone Into the Hands of Beceivers-The Chicago and Ohio River Pool.

The Monon will soon begin paying its employes

by check. The Joint Western Classification Committee will meet in St. Louis February 4. The Indianapolis and Evansville, sold under Screelosure last year, was fifty-seven miles in Zength. Its funded debt was \$100,000, and its cap-a.si stock \$550 00s.

It has been found that coke will take the place of coal to a good advantage in firing locomotives. The heat is comparatively greater, and there is no soot to annoy passengers.

About the last of April the freight department of the Air Line will be located in the C., H. and I. freight depot. The Air Line's contract with the Wabash expires at that time. Negotiations for a transfer of the control of

The West Shore to the Vanderbilt people have reached such a point that a definite announcement concerning the same may be expected at any time. In a short time the Air Line folks will put on through trains between this city and Chicago, which will make the run between the two cities on six hours, an hour earlier than they make it now. To these trains will be attached sleepers, delivered here from Cincinnati by the C., H. and D. This will certainly be good nows to the traveling public generally. ching public generally.

There has been a general change of employes who occupy clerkships in the Vandalla Auditor's office. The appointment of Traveling Auditor Coleman to the agency of the Terre Haute and Logan-port at South Bend, is the underlying cause. John Theobold. Chief Clerk, will succeed Mr. Coleman as Auditor, and Mr. Harry Creagar will assume the resigned duties of the Chief Clerk.

The Commissioners have concluded the inven fory of the real and personal property of John W. Carrett, President of the Baltimore and Ohio Railroad. The personal property aggregates over \$39,016,006, while the real estate is \$5,000,000 more, making a total of \$35,000,000. When Mr. Garrett clied a few months ago it was thought his estate would not exceed \$15,000,000. All the property is left to his widow and three children.

All of the Indianapolis officials who were in attendance upon the meeting of the Chicago and Ohio River Pool have returned home. They say that the meeting was a very harmonious one, and that the pool is now in better condition than ever before. Mr. Richardson says that there will be a readjustment of rates if it is shown that any line, by reason of a differential or reduced sleeping er rates, is carning more than its allotted perat it takes in Michigan and Wisconsin points,

It is shown by statistics compiled by a promiment railway magazine that during the past twelve months thirty-seven railways having a mileage of 11,000 miles with a bouded debt of 2007,000,000, not including other debts and past due interests, and an apparent capital stock investment of over \$307,000,000, have failed and have been taken possession of by the courts for the benefit of their creditors. This same magazine states that these roads indicate nearly 9 per cent. of the entire present railway mileage of the United States, nearly 12 per cent. of the total bonded debt, nearly 9 per cent. of the capital stock and almost 10 per cent. of the total bonded debt, nearly 9 per cent. of the capital stock and almost 10 per cent. of the total bond and stock investment of the country. That these figures are investment of the country. That these figures are appalling none will deny. They simply go to show that the railroad business in the United states has been and is still being overdone.

discusses the railroads to some extent. Railroads, he says, are entitled to the same rights and prosection as other property-no more, no less, and no one should complain at such a law and such sible, and that upon vital points. Transportation is one process of manipulation which transforms the products of the wheat fields into bread, life and happiness for the hungry thousands elsewhere. As said by a thoughtful writer: "Graduwhere. As said by a thoughtful writer: "Gradually the rail oad mansgers have reached a better understancing of the fact that the prosperity of their corporations and the growth of their properties were indissolubly linked with the growth and prosperity of the community from which they must derive all their business. This view is clearest among those managers who have control of the most diversified interests, among those whose lines stretch through different States and supply different communities."

Judgment for Plaintiffs in the Patent Infringement Case.

An Arrest for Larceny Leads to \$5,000 Damage; Suit-Other Notes.

William L. Morgan wants a divorce from Pauline Morgan, whom he married in July, 1582 W. O. Reveal yesterday filed an appeal bond in

John M. Caylor, farmer, aged twenty-six years, has been declared insane. He is subject to epilep-gie fits. Ten years ago he was sunstruck. The County Board yesterday allowed bills to the

amount of \$1,025. Of this sum \$623 were allowed Q. H. Hosselman for printing blanks, etc. Judge Taylor yesterday granted a divorce to Elizabeth A Thomas from William W. Thomas on proof of cruel treatment and failure to provide. In the damage suft of Allen G. Morris and others

against Henry C. Holloway and others for damages, growing out of an infringement on the rights of plaintiffs by defendants in the sale of a patented elbow joint for stove pipes, the jury in Room 1 yesterday afternoon returned a verdict for plaintiffs, giving them \$330. Benry Lottstein yesterday filed in 'Squire Fei-

bleman's Court affidavits in two cases against Elias Oppenheimer for a-sault and battery, and one for drawing a pistol on him. He also filed against Mrs. Oppenheimer for assault and battery and provoke, similar complaints in a reverse order were filed in 'Squire Smock's Court. The parties both keep second-hand stores. Bennett Carson has filed suit for damages

against Leopold a Jenner, Mary L. Barr and Luke

G. Butterfield, alleging for cause of action that the last two named defendants, on the 9th of last month, swore out a warrant before 'Squire Cul-bertson for plaintid's arrest for petit larceny, the affidavit charging him with stealing a amdavit charging him with stealing a saw-handle worth twenty-five cents, and a saw-log worth \$5. Carson gave bond for appearance on the 12th, when he took a change of venue to Squire Van Scyoc, where the case was tried eight days later and he was acquitted. The amount of anguish of mind, was acquitted. The amount of anguish of mind, pain and disgrace is put at \$5,000 value, for which he asks judgment. Sentinel readers will remember Mrs. Barr as being the victim of her husband's jealous race on the evening of July 4th last, when she was shot and dangerously wounded. Ruius Barr was jealous of her and made herself so disagreeable that his wife became afraid to live with him. The defendant Butterfield is her father, and Jeuner is a tenant. It saws to he a paighbarhand average tenant. It seems to be a neighborhood quarrel, which has led to the filing of the suit.
